

## **Organization of research work**

The goal of the research at the department is development and implementation of organizational, scientific-practical and methodical recommendations in order to form the foundations of a professionally oriented secondary language personality, ready for foreign language professional intercultural communication and self-development in the conditions of globalization.

### **Participation of the department teachers in research projects**

1. International program of academic mobility. The project "German-language reception of the work of Ivan Franko". The result of participation in the program was the preparation and signing of a cooperation agreement between the European University of Viadrina and the Carpathian University. 2022-2023 and 2023-2024 AD (Vasyl Tkachivskyi is a participant).
2. International project ECHO® (Extension for Community Healthcare Outcomes). The project in Ukraine began its work in November 2020, after the signing of the relevant contracts between the Vasyl Stefanyk Precarpathian National University and the ECHO-Institute of the University of New Mexico, the Health Sciences Center. (Oksana Rudnianska – communications manager of the ECHO Project in Ukraine, translator). <https://cbt.pnu.edu.ua/echo/>
3. International project "Innovation in education. Innovative technologies for teaching professional disciplines", University of Silesia in Katowice (internship). 2021 (Tetyana Pomirkovana – participant).
4. English for Universities international project, which aims to help Ukrainian institutions develop a sustainable capacity for English language teaching, implement standards in universities and improve language teaching and learning to create more opportunities for effective participation in initiatives of international cooperation (2014-2019, Hanna Karpenko – participant and coordinator of the project from the Department of Foreign Languages). <https://www.britishcouncil.org.ua/en/teach/projects/english-universities>
5. Scientific project "Semantic syntax of the Ukrainian language: translinguistic aspect". Grant for young scientists of the Ministry of Education and Science of Ukraine, state registration number 0117U003724. The purpose of the scientific topic is to develop theoretical and applied provisions of the semantic syntax of the Ukrainian language in the translinguistic aspect on the material of the Ukrainian, English, German, French, and Polish languages with an interactive electronic application (thematic website "Semantic Syntax of the Ukrainian Language: Translinguistic Aspect"). (09/01/2017 - 09/31/2020, Natalia Magas - co-author and senior researcher of the scientific project). <https://projects.pnu.edu.ua/category-philology/ukrainian-semantic-syntax/>
